

Section 2 — Source Document Register

This is the consolidated reference of every source document required to run the full INAFIN GST Audit Reconciliation Framework across sections A1 through A10 (Output Tax) and B1 through B8 (Input Tax Credit). It also covers the entity entitlement and allied law instruments that establish the legal right to make specific GST claims.

Four top-level categories: (A) Client-Provided Documents — data and instruments held by and obtained from the client. (B) GST Portal and Government Data — returns, statements, and official records retrieved from GSTN and allied government portals. (C) Platform Regulatory Corpus — INAFIN-resident reference data, not client-provided. (D) External Third Party — data held by parties other than the client, GSTN, or INAFIN.

Column definitions: Ref = group reference code. M/C = Mandatory (without it reconciliation output cannot be produced) or Conditional (required for specific supply types, client profiles, or sub-sections). Mode = Forensic (reactive engagement after audit notice), Operational (continuous platform user), or Both.

Documents marked Mandatory must be received and validated before any reconciliation output is released. The completeness gate (Anomaly Type T9, Document 1 Section 4) must pass for all Mandatory documents in Forensic Mode. In Operational Mode, Mandatory documents are ingested at onboarding and refreshed at configured intervals.

Ref	Document / Data Extract	Source	M / C	Sections	Mode	Notes
CATEGORY A — CLIENT-PROVIDED DOCUMENTS						
A1 — Transaction Data (ERP and Books)						
A1.01	Sales register — outward supply, invoice-level: invoice no, date, customer GSTIN, supply type, HSN/SAC, qty, UOM, unit price, trade discount, add-on charges (freight/packing/insurance), taxable value, GST rate, CGST/SGST/IGST, total value, currency, reverse charge flag	Client ERP	Mandatory	A1,A2,A3,A6,A7,A8,A9	Both	Line-item level mandatory. All formats per ADR-056. Primary source for all output tax sections.
A1.02	Credit note and debit note register — with original invoice reference, reason code, adjusted taxable value and tax	Client ERP	Mandatory	A1,A2,A8,B8	Both	Must carry original invoice number. Unlinked CNs are an immediate finding.
A1.03	Purchase register — inward supply, invoice-level: supplier GSTIN, invoice no, date, taxable value, CGST/SGST/IGST, GL code, cost centre	Client ERP	Mandatory	B1,B2,B3,B4,B5,B8	Both	GL code and cost centre mandatory for Rule 42 pool segregation.
A1.04	Advance receipt register — date, amount, customer, supply type, GST paid on advance, invoice linkage	Client ERP	Conditional	A4	Both	Required for all service taxpayers. Goods advance tracking post Notification 66/2017.
A1.05	Unbilled revenue schedule — item-level with date_of_service_completion per item	Client Books/ERP	Conditional	A5	Both	date_of_service_completion is the critical field — see Missing Items Register Item 2. Without it, 30-day rule is flag-only.
A1.06	Job work dispatch register — goods sent to job worker with	Client ERP	Conditional	A5	Both	Dispatch date triggers the 1-year/3-year statutory return

	date_of_goods_dispatch_to_job worker, qty, description, job worker GSTIN					deadline. See Missing Items Register Item 3.
A1.07	Running account / continuous supply contract register — contractual billing frequency, statement of account dates, delivery records	Client ERP/Contracts	Conditional	A5	Both	For manufacturers on running account arrangements. Section 12(4) continuous supply timing check. See Missing Items Register Item 4.
A1.08	Audited Profit and Loss Account — full year, all revenue GL accounts with narrations	Client Books	Mandatory	A2,A3	Both	Starting point for GSTR-9C Table 5 turnover bridge. Every revenue credit must be captured and classified.
A1.09	Trial balance — GL-level detail with account descriptions and opening/closing balances	Client Books	Mandatory	A2,A3,B4	Both	Maps each GL to GST treatment. Required for Rule 42 pool segregation and P&L turnover analysis.
A1.10	Balance sheet — full year: advances from customers, unbilled revenue, deferred revenue, creditors, capital goods schedule	Client Books	Mandatory	A4,A5,B2,B7	Both	Multiple uses across output and input tax sections.
A1.11	Fixed asset register — asset-level: purchase date, purchase value, ITC availed, date of disposal, disposal value, disposal type	Client Books	Mandatory	A3,B7	Both	Must be asset-level. Rule 44 disposal reversal cannot be computed from aggregate totals.
A1.12	Creditor ageing report — outstanding invoices by age as at period end, per invoice	Client Books	Mandatory	B2	Both	Primary input for 180-day payment rule. Invoice date and payment status per invoice required.
A1.13	Payment register — date and amount of each supplier payment linked to invoice	Client Books/Bank	Mandatory	B2	Both	Bank transfer date is the payment date. Cheque issue date is not. Must be cross-verified with bank statement.
A1.14	Bank statements — all outward payments to suppliers	Client Bank	Mandatory	B2	Both	Authoritative record of payment dates for 180-day rule compliance.
A1.15	Bank statements — all inward foreign currency receipts (export proceeds)	Client Bank	Conditional	A8	Both	Supports FIRC/BRC reconciliation. Export proceeds realisation confirmation.
A1.16	Stock / inventory register — opening and closing stock per SKU with write-off records	Client Books/WMS	Conditional	A1,B3	Both	Required for stock-to-invoice reconciliation and Section 17(5)(h) write-off ITC reversal.
A1.17	Product / SKU master — MRP_applicable flag (Y/N) and declared MRP per SKU	Client Master Data	Conditional	A1	Both	Mandatory for FMCG/retail profiles. Cannot be derived from invoice register. See Missing Items Register Item 1 (RESOLVED).
A1.18	Inter-GSTIN transaction register — all stock transfers, cross-charges, capital good transfers between GSTINs under the same PAN	Client ERP	Conditional	A7	Both	Required for multi-GSTIN entities. Enables inter-GSTIN supply declaration and valuation check.
A1.19	Cost allocation register — HO to branch allocations including those without invoices	Client Books	Conditional	A7	Both	Identifies allocations without invoice that may constitute taxable inter-GSTIN supplies. Contest item A7.2.
A1.20	Platform settlement reports — MTR, GTR, SSR, DRR, VRET for all marketplace platforms	Marketplace Operators	Conditional	A9	Both	Required for all marketplace sellers. All formats (Excel/CSV) per ADR-056. Field mapping per operator maintained as configuration.

A1.21	ITC reversal register — Rule 42/43 and Section 17(5) reversals per period	Client ERP/Books	Conditional	B3,B4	Both	Client-maintained reversal records. Cross-checked against GSTR-3B declarations.
A1.22	RCM register — RCM category, supplier, invoice, RCM liability computed and paid per period	Client ERP	Conditional	B5	Both	Required for all taxpayers with RCM categories. Particularly important for import of services.
A1.23	Foreign currency payment register — all payments to overseas vendors: amount, vendor, country, purpose, invoice/contract reference	Client Bank/ERP	Conditional	B5	Both	Every foreign payment assessed for import of services RCM. Completeness gate — if absent, all import of services checks are INCOMPLETE.
A1.24	Common input service invoices at HO — rent, IT, insurance, audit fees shared across GSTINs	Client ERP	Conditional	B6	Both	Required for ISD distribution verification. Post 01 Oct 2023 mandatory ISD compliance check.

A2 — Corporate Identity and Structure

A2.01	Certificate of Incorporation — with CIN (Company Identification Number), date of incorporation, registered office address	Client / MCA	Mandatory	A6,A7	Both	Establishes legal identity and date from which entity exists. CIN is the anchor for MCA registry cross-checks.
A2.02	Memorandum and Articles of Association — including authorised business objects	Client	Conditional	A6,A7	Forensic	Establishes authorised business scope. Relevant for nature of supply and place of supply determinations.
A2.03	Shareholding pattern — current and for each year in audit period	Client / MCA / SEBI	Mandatory	A6,A7	Both	Identifies entities holding 25% or more voting stock — triggers related person test under Section 15. Must be period-specific.
A2.04	Related party register — all related persons with GSTIN/PAN, nature of relationship, ownership percentage	Client Declaration	Mandatory	A6,A7	Both	Cannot be derived from transaction data. Client must declare at onboarding. Without it all A6 checks are INCOMPLETE.
A2.05	Ind AS 24 / AS-18 related party disclosure from audited financial statements	Client / Auditors	Mandatory	A6,A7	Both	Auditor-verified related party list. Most reliable starting point. Must be obtained for each year in scope.
A2.06	Joint venture agreement — JV partner relationships, ownership structure, control provisions	Client	Conditional	A6	Both	Establishes JV partner relationships. Section 15 related person test — both controlling a third person.
A2.07	GSTIN register — all GSTINs under the same PAN with state, registration type, effective date	Client / GSTN	Mandatory	A7,B6	Both	Complete GSTIN universe for the entity. Missing GSTINs mean incomplete inter-GSTIN reconciliation.

A3 — Director and Officer Documents

A3.01	List of directors with Director Identification Number (DIN) — current and for each year in audit period	Client / MCA	Conditional	A6,B5	Both	DIN is the government-issued unique identifier for every director. Required for RCM determination and related party identification.
A3.02	Form DIR-12 — MCA filing on appointment and cessation of directors with effective dates	Client / MCA	Conditional	A6,B5	Forensic	Establishes periods of directorship. Critical for period-specific RCM determination — was this person a director on this date?
A3.03	Board resolution appointing whole-time / managing director — with appointment date and terms	Client	Conditional	A6,B5	Both	Establishes executive director status. Without this, default assumption is non-executive (RCM applicable at 18%).
A3.04	Director service agreement / employment contract for whole-time directors	Client	Conditional	A6,B5	Both	Establishes employer-employee relationship for Schedule III exclusion. Must show CTC,

						reporting structure, and payroll inclusion.
A3.05	Payroll and TDS register — Form 16 (TDS 192) per employee, TDS 194J per professional, TDS 194C per contractor	Client Books/HR	Conditional	A6,B5	Both	Employee vs contractor classification. TDS code is the primary determinant. Cross-referenced with director list for executive classification.
A3.06	Key managerial personnel (KMP) list from annual report — with designations	Client / MCA	Conditional	A6	Both	Verifiable against MCA filings. Establishes who holds statutory positions.

A4 — Contracts and Agreements

A4.01	Cost-sharing agreements — inter-company arrangements for shared services, management fees, IT costs, with basis of cost allocation	Client	Conditional	A6,A7,B5	Both	Circular 159/15/2021 requires documented evidence of cost-sharing basis. Nature of arrangement determines taxability.
A4.02	Service contracts with foreign customers — nature of service, recipient jurisdiction, delivery mechanism, payment terms	Client	Conditional	A8	Both	Five-condition test under Section 2(6) IGST Act. Contract is primary evidence of recipient location and place of supply.
A4.03	Overseas vendor contracts — management fees, technical assistance, royalty agreements, cloud/SaaS subscriptions	Client	Conditional	B5	Both	Import of services RCM identification. Nature of service and payment/invoice dates determine time of supply.
A4.04	Job work agreement — nature of arrangement, materials supplied, process performed, return timeline	Client	Conditional	A5,A1	Both	Distinguishes job work from contract manufacturing. Affects taxability, ITC entitlement, HSN classification.
A4.05	Long-duration service contracts — milestone schedule, POCM basis, billing triggers	Client	Conditional	A5	Both	Required for time of supply determination on milestone-based and POCM-based revenue recognition.
A4.06	Transfer pricing documentation — TP study with arm's length price for related party transactions	Client / Tax Advisors	Conditional	A6	Both	Arm's length price in TP documentation is the most defensible open market value basis under Section 15(4) Rule 28.
A4.07	Advance Pricing Agreement (APA) — bilateral agreement with income tax authority on arm's length pricing	Client / CBDT	Conditional	A6	Both	Higher evidentiary value than TP study — government-agreed arm's length price for related party supplies.
A4.08	GTA invoices and consignment notes — per freight payment	Client	Conditional	B5	Both	Consignment note is the trigger document for GTA RCM. Without it, transport payment is not a GTA supply.
A4.09	Security agency contracts — with supplier entity type (company vs proprietorship/partnership)	Client	Conditional	B5	Both	Security agency entity type determines forward charge vs RCM. Company = forward charge. Others = RCM.

A5 — Export and Zero-Rated Entitlement Instruments

A5.01	LUT (Letter of Undertaking) — ARN, GSTIN, financial year of validity. One LUT required per financial year per GSTIN	Client / GSTN Portal	Conditional	A8	Both	The legal instrument enabling zero-rated export without IGST payment. Period-specific — must be valid at date of each export invoice.
A5.02	IEC (Importer Exporter Code) certificate from DGFT — IEC number and linked GSTIN	Client / DGFT	Conditional	A8	Both	Mandatory code for all export/import transactions. Must be linked to exporting GSTIN. Mismatch blocks ICEGATE-GSTN data flow.
A5.03	SEZ unit's Letter of Approval (LoA) — issued by Development	Client / SEZ Authority	Conditional	A8	Both	LoA number must appear on every supplier invoice to SEZ. LoA validity

	Commissioner: unit identity, authorised operations, validity period, permitted goods/services					at supply date is a hard condition for zero-rating.
A5.04	SEZ unit's Letter of Permission (LoP) — for IT/ITES SEZ units	Client / Development Commissioner	Conditional	A8	Both	Same function as LoA for service SEZ units. Validity and authorised operations scope must be current at supply date.
A5.05	SEZ Operations Commencement Certificate — date from which SEZ unit commenced authorised operations	Client / Development Commissioner	Conditional	A8	Both	Zero-rated supply entitlement begins from commencement date — not from LoA date. Supplies before commencement do not qualify.
A5.06	SEZ Notification — official government notification establishing the SEZ, its boundaries, and approved units	Client / Ministry of Commerce	Conditional	A8	Both	Establishes that the recipient's premises are within a notified SEZ. Supply to premises outside notified boundary does not qualify.
A5.07	SEZ Annual Performance Report (APR) — approval status per year	Client / Development Commissioner	Conditional	A8	Both	Non-approval or suspension of APR can affect SEZ status. Unit with rejected APR loses zero-rated supply entitlement from suspension date.
A5.08	EOU Letter of Permission (LoP) from Development Commissioner — with NFE obligation and validity	Client / Development Commissioner	Conditional	A8,A10	Both	Required for zero-rated supply to EOU. NFE (Net Foreign Exchange) obligation status determines continued EOU eligibility.
A5.09	STPI registration letter — with registration number, permitted services, and validity	Client / STPI	Conditional	A8,A10	Both	Required for suppliers to STPI units claiming zero-rated status.
A5.10	EOU Annual Compliance Report — filed with Development Commissioner, approval status	Client / Development Commissioner	Conditional	A8	Both	Non-compliance can result in LoP cancellation and retrospective demand on zero-rated supplies received.
A5.11	EPCG Licence — licence number, validity, export obligation quantum, permitted capital goods	Client / DGFT	Conditional	A8	Both	Required for deemed export claim under Notification 48/2017. Licence number must appear on invoice.
A5.12	Advance Authorisation (AA) — licence number, validity, permitted inputs and export obligation	Client / DGFT	Conditional	A8	Both	Required for deemed export claim. Permitted inputs list must cover the goods supplied.
A5.13	Export Obligation Discharge Certificate (EODC) — issued by DGFT on fulfilment of export obligation	Client / DGFT	Conditional	A8	Both	Closes the export obligation loop. Without EODC, the deemed export or duty-free entitlement remains contingent.
A5.14	FIRC / BRC register — foreign exchange realisation per export invoice: date, amount, currency, AD bank, FIRC number	Client / AD Bank	Conditional	A8	Both	12-month realisation deadline monitoring. Both FIRC (bank-issued) and DGFT eBRC (government-authenticated) required.
A5.15	SOFTEX form approval — for STPI software exporters certifying software exports	Client / STPI/RBI	Conditional	A8	Both	STPI equivalent of shipping bill for software exports. Required to establish that supply to STPI unit was a genuine export.
A5.16	Customs Bonded Warehouse licence — for EOU units establishing bonded premises	Client / Customs	Conditional	A8	Both	GST zero-rating of supplies to EOU is anchored to the bonded premises. Supply to non-bonded premises does not qualify.

A5.17	ITC-04 acknowledgements — job work return confirmations filed with GSTN	Client / GSTN	Conditional	A5,A1	Both	Establishes that goods sent to job worker were returned within statutory period. Defence against deemed supply on deadline expiry.
--------------	---	---------------	--------------------	-------	-------------	--

A6 — Allied Law Instruments — Customs

A6.01	Bill of Entry — assessed copy and out-of-charge copy per import shipment: customs value, HSN, IGST paid, BCD paid	Client / ICEGATE	Conditional	B1	Both	Assessed BoE establishes customs value and HSN for IGST ITC computation. Out-of-charge copy confirms clearance.
A6.02	Customs Tariff Classification order / speaking order — entity-specific classification ruling for specific imported goods	Client / Customs	Conditional	A1,B1	Both	Entity-specific ruling overrides general HSN master for that taxpayer's specific goods. Determines IGST rate and ITC quantum.
A6.03	Customs Duty Exemption Certificate and applicable notification — for concessional or nil duty imports	Client / Customs	Conditional	B1	Both	Where IGST is also exempt or concessional on import — determines ITC available. Notification applicability and entity entitlement both required.
A6.04	B-17 Bond — customs bond for EOUs permitting duty-free import and manufacture	Client / Customs	Conditional	A8,B1	Both	Establishes EOU's bonded status. Breach of bond conditions can retrospectively affect zero-rating of related supplies.
A6.05	BLUT (Bond with Letter of Undertaking) — for exports without payment of customs duty	Client / Customs	Conditional	A8	Both	Export entitlement instrument for customs. Relevant where GST and customs interact on export transactions.
A6.06	AEO (Authorised Economic Operator) certificate — issued by Customs with validity period	Client / Customs	Conditional	A8	Both	AEO status affects customs facilitation and supply chain cost structures. Certificate validity must be current.

A7 — Allied Law Instruments — FEMA / RBI

A7.01	RBI approval for delayed export realisation — extension beyond 12-month standard period	Client / RBI	Conditional	A8	Both	Where FIRC/BRC not received within 12 months and RBI extension obtained — this approval sustains the zero-rating. Without it, IGST becomes payable with interest from export date.
A7.02	RBI Compounding Order — for compounded FEMA violations related to export proceeds or foreign currency	Client / RBI	Conditional	A8	Forensic	Compounding order establishes the settled position on the FEMA violation. Relevant where export zero-rating is challenged due to irregular realisation.
A7.03	ODI (Overseas Direct Investment) approval — for companies with overseas subsidiaries	Client / RBI	Conditional	A6,B5	Both	Establishes related party relationship with overseas subsidiary. Relevant for import of services RCM identification.
A7.04	Form 15CA / 15CB — remittance certificates filed for overseas payments	Client / CA	Conditional	B5	Both	Form 15CB (CA certificate) classifies the nature of overseas payment. Classification determines RCM applicability and treaty position.
A7.05	SCOMET licence — for export of special chemicals, organisms, materials, equipment and technologies	Client / DGFT	Conditional	A8	Both	Supply of SCOMET items without valid licence has GST and customs implications. Required where taxpayer exports SCOMET items.

CATEGORY B — GST PORTAL AND GOVERNMENT DATA (Platform retrieves via API or portal download)

B1 — GSTN Filed Returns and Statements

B1.01	GSTR-1 — all periods, all tables: B2B (T4), B2CL (T5), EXP (T6A/6B), B2CS (T7), EXEMP (T8), CDNR (T9), CDNUR (T10), AT (T11), amendments (T9A/9B/9C)	GSTN API	Mandatory	A1,A2,A7,A8,A9,A10	Both	The government record of declared outward supply. Primary reconciliation counterpart to client sales register.
B1.02	GSTR-1 ARN and filing date — per period, per GSTIN	GSTN API	Mandatory	A1,A6	Both	Confirms return was filed. Delayed filings trigger interest computation from due date.
B1.03	GSTR-2B — all periods: auto-populated ITC statement with invoice-level ITC from supplier GSTR-1, ISD credits, TCS, CN/DN entries	GSTN API	Mandatory	B1,B2,B5,B6,B8	Both	Authoritative ITC availability statement. Cap on claimable ITC post Section 16(2)(aa) from 01 Jan 2022.
B1.04	GSTR-2B amendment history — supplier amendments to previously filed invoices affecting buyer GSTR-2B	GSTN API	Mandatory	B1,B8	Both	Supplier amendments change buyer's GSTR-2B. Affects ITC already claimed in prior periods.
B1.05	GSTR-3B — all periods: Table 3.1 (outward supply liability), Table 4 (ITC availed and reversed), Table 5 (exempt/nil/non-GST), Table 6 (tax payments)	GSTN API	Mandatory	A1,A10,B1,B2,B3,B4,B5,B6,B7	Both	Filed tax payment return. What was declared and paid. Compared against computed obligations across all sections.
B1.06	GSTR-9 Annual Return — Tables 4, 5, 6, 7, 8, 9, 11, 14	GSTN API	Mandatory	A1,A2,A10,B1,B4	Both	Annual consolidated declaration. Formal reconciliation target for turnover and ITC.
B1.07	GSTR-9C Reconciliation Statement — Table 5 (turnover bridge, auditor certified) and Table 12 (ITC reconciliation)	GSTN API	Mandatory	A2,A3	Both	Platform computes the bridge independently and compares against the filed GSTR-9C.
B1.08	GSTR-2A — historical (pre-GSTR-2B periods, pre-January 2020)	GSTN API	Conditional	B1	Forensic	Required for Forensic engagements covering periods before GSTR-2B was introduced.
B1.09	GSTR-6 / GSTR-6A — ISD return: distribution amounts per recipient GSTIN per period	GSTN API	Conditional	B6	Both	Required for clients operating as ISD. Distribution amounts and tax heads per recipient GSTIN.
B1.10	GSTR-7 — TDS deducted by specified persons (government entities)	GSTN API	Conditional	A1	Both	TDS deducted reduces net tax payable. Relevant for clients receiving payments from government entities.
B1.11	GSTR-8 — TCS by e-commerce operators: seller GSTIN-wise, state-wise TCS for all periods	GSTN API	Conditional	A9	Both	Operator's declared TCS base per seller GSTIN. Primary check for marketplace seller TCS reconciliation.

B2 — GST Registration and Status Documents

B2.01	GST Registration Certificate (REG-06) — for every GSTIN of the taxpayer: legal name, trade name, registration type, principal place of business, additional places, effective date, authorised signatories	GSTN Portal	Mandatory	A1,A6,A7,B6	Both	Foundational identity document. Registration type determines ITC eligibility, return obligations, and composition status.
B2.02	GST Registration Certificate — key customers: registration type, active/cancelled status at invoice date	GSTN API	Mandatory	A1,A6,B1	Both	B2B ITC entitlement verification. Supply to composition dealer cannot carry ITC to buyer.
B2.03	GST Registration Certificate — key suppliers: registration type, active/cancelled status at invoice date	GSTN API	Mandatory	B1,B3	Both	ITC on purchases from unregistered suppliers (outside RCM) is not available. Cancellation at invoice date voids ITC.

B2.04	GST Registration amendment history — changes to authorised signatories, additional places, registration type	GSTN Portal	Conditional	A1,A7	Both	Material for period-specific entitlement determination. Registration type changes affect ITC eligibility.
B2.05	Composition scheme opt-in (CMP-01) and opt-out (CMP-04) records with effective dates	GSTN Portal	Conditional	A1,B1,B3	Both	During composition periods: taxpayer cannot issue tax invoices. Buyers cannot claim ITC on purchases from composition suppliers.
B2.06	ISD Registration Certificate — with effective date of ISD registration	GSTN Portal	Conditional	B6	Both	Establishes legal basis for ITC distribution. Post 01 Oct 2023: mandatory if common input services exist at HO. Without ISD registration, branch ITC claims via cross-charge are invalid.
B2.07	GSTIN active/cancelled/suspended status at specific dates — for all supplier and customer GSTINs transacted with	GSTN API	Mandatory	A1,B1	Both	GSTIN validity at invoice date. Retrospective cancellation identification. Active status at date of supply is the test — not current status.

B3 — Notices, Proceedings, and Settlement Instruments

B3.01	Open Show Cause Notice (SCN) register — all SCNs issued: period covered, issue raised, amount demanded, current stage	GSTN Portal / Client	Mandatory	All	Both	Platform must not re-flag an issue already subject to an SCN as an unaddressed anomaly. Stage of proceedings determines response pathway.
B3.02	DRC-01B notices — GSTR-1 vs GSTR-3B mismatch notices issued by GSTN system	GSTN Portal	Conditional	A1	Both	System-generated notices for GSTR-1/GSTR-3B discrepancies. Must be reconciled and responded to.
B3.03	DRC-03 voluntary payment records — all voluntary payments made with period, issue, and amount	GSTN Portal	Conditional	All	Both	Prior voluntary payments reduce quantum of any demand. Critical in Forensic Mode to avoid double-counting of payments already made.
B3.04	Amnesty scheme participation certificate / settlement order — Vivad Se Vishwas or similar schemes	GSTN Portal / Client	Conditional	All	Forensic	Settlement order establishes that liability for that period and issue is closed. Platform must not re-raise settled issues.
B3.05	Court order / stay order specific to the taxpayer — HC, SC, CESTAT orders staying or deciding specific GST demands	Client / Court Registry	Conditional	All	Both	A demand subject to a court stay is not an open liability. Platform must record stay orders and exclude stayed demands from open anomaly count.
B3.06	Personal hearing orders and adjudication orders — issued by GST officer during audit/assessment proceedings	GSTN Portal / Client	Conditional	All	Forensic	Establishes the current stage of proceedings. Required in Forensic Mode to understand which issues are already before the officer.
B3.07	Refund applications (RFD-01) and status — including deficiency memos and GSTN processing status	GSTN Portal	Conditional	A8	Both	Export refund tracking. 60-day processing deadline monitoring. Deficiency memo identification and response.

B4 — E-Invoice and E-Way Bill Portal Data

B4.01	IRN / IRP register — all IRNs generated: invoice number, date, GSTIN, taxable value, IRP acknowledgement number and timestamp	IRP API	Conditional	A1	Both	Required for taxpayers above e-invoice threshold. IRP timestamp is authoritative invoice date. Invoice without IRN is legally defective.
B4.02	E-Way Bill outward register — all EWBs generated by the taxpayer: EWB number, invoice	EWB Portal API	Mandatory	A1	Both	Outward goods movement validation. Three-way match with invoice and GSTR-1.

	number, value, HSN, from-to state, transporter					
B4.03	E-Way Bill threshold history — effective dates of each threshold change from April 2018 to current	INAFIN Corpus / EWB Portal	Mandatory	A1	Both	Determines which transactions required EWB at the date of supply. Bitemporal — threshold has changed multiple times.
B4.04	E-invoice threshold history — effective dates of each threshold change from October 2020 to current	INAFIN Corpus / IRP Portal	Mandatory	A1	Both	Determines which taxpayers were mandatory e-invoice filers at any given date. Invoice without IRN is only a finding if taxpayer was above threshold.

B5 — ICEGATE and Customs Portal Data

B5.01	ICEGATE shipping bill data — all shipping bills: shipping bill number, date, invoice reference, FOB value, HSN, port code, exporter GSTIN, IEC	ICEGATE API	Conditional	A8	Both	Three-way match with sales invoice and GSTR-1 Table 6A. EGM status check. Required for all goods exporters.
B5.02	ICEGATE EGM (Export General Manifest) status — per shipping bill: filed/not filed	ICEGATE API	Conditional	A8	Both	Confirms goods have left India. Refund cannot be processed until EGM is filed by the shipping line.
B5.03	Bill of Entry data from ICEGATE — IGST paid on imports per BoE	ICEGATE API / Client	Conditional	B1	Both	Import IGST credit reconciliation. Separate from GSTR-2B — flows from ICEGATE not from supplier GSTR-1.

B6 — DGFT Portal Data

B6.01	DGFT eBRC (Electronic Bank Realisation Certificate) — government-authenticated export proceeds realisation per invoice	DGFT Portal	Conditional	A8	Both	Government-authenticated version of export realisation. Distinct from bank-issued FIRC/BRC. Both required for zero-rating defence.
B6.02	IEC registry — IEC number, linked GSTIN, validity status	DGFT Portal	Conditional	A8	Both	IEC-GSTIN linkage validation. Mismatch between IEC on shipping bill and GSTIN in GSTR-1 blocks refund processing.
B6.03	Export obligation status — outstanding vs fulfilled per EPCG/AA licence	DGFT Portal	Conditional	A8	Both	Defaulted export obligation retroactively affects deemed export zero-rating claims. Must be current status.

CATEGORY C — PLATFORM REGULATORY CORPUS (INAFIN-resident — not client-provided)

C1 — Primary Legislation (Acts)

C1.01	CGST Act 2017 — all sections with amendment history (Finance Acts 2018 through 2025)	INAFIN Corpus	Mandatory	All sections	Both	Foundational legal basis. Sections 7 (supply), 9 (levy), 15 (valuation), 16 (ITC), 17 (blocked credits), 20 (ISD), 25 (registration), 34 (credit notes), 52 (TCS). Bitemporal.
C1.02	IGST Act 2017 — all sections with amendment history, including Sections 2(6) (export of services), 10–13 (place of supply), 16 (zero-rated supply)	INAFIN Corpus	Mandatory	A1,A7,A8	Both	Place of supply and zero-rating framework. Section 13 service-specific rules are critical for export of services classification.
C1.03	UTGST Act 2017, Compensation Cess Act 2017 — with amendment history	INAFIN Corpus	Mandatory	A1	Both	UTGST for Union Territory supplies. Cess for specified goods (tobacco, luxury vehicles, aerated drinks).
C1.04	Customs Act 1962 and Customs Tariff Act 1975 — relevant provisions for import IGST, SEZ, EOU	INAFIN Corpus	Conditional	A8,B1,A6	Both	Customs law provisions that directly affect GST treatment — particularly for imports, SEZ/EOU supplies, and deemed exports.

C1.05	IGST (Extension to Jammu and Kashmir) Act, CGST (Extension to J&K) Act — if relevant to client operations	INAFIN Corpus	Conditional	A1,A7	Both	J&K-specific provisions applicable to supplies to/from J&K-registered entities.
C2 — Subordinate Legislation (Rules and Notifications)						
C2.01	CGST Rules 2017 — all rules with amendment history: Rules 27–35 (valuation), Rule 36 (ITC documents), Rule 37 (180-day), Rule 39 (ISD), Rule 42 (inputs reversal), Rule 43 (capital goods reversal), Rule 44 (disposal), Rule 46 (invoice), Rule 48 (e-invoice), Rule 86B, Rule 89 (refund)	INAFIN Corpus	Mandatory	A1,A2,A6,B1,B2,B4,B5,B6,B7	Both	Rules are the operational mechanism. Bitemporal essential — rules amended frequently. Rate and procedure rules are both covered.
C2.02	GST Rate Notifications — CGST (Rate) and IGST (Rate) from July 2017 to current: HSN/SAC rate schedule with effective dates per rate revision	INAFIN Corpus / CBIC	Mandatory	A1,A3,A10,B3	Both	Rate applicable at date of supply for each HSN/SAC. Most query-intensive corpus dataset. Every rate change bifurcates the schedule.
C2.03	Exemption Notifications — Notification 12/2017 CGST (Rate) and all amendments: exempt service categories with conditions and effective dates	INAFIN Corpus	Mandatory	A3,A10	Both	Exempt supply classification. Conditions matter as much as the category. Bitemporal — exemptions added, modified, withdrawn.
C2.04	RCM Notification 13/2017 CGST and all amendments — Section 9(3) notified categories with supplier/recipient classification and effective dates	INAFIN Corpus	Mandatory	B5	Both	RCM category list. Bitemporal — categories added and removed. Must apply notification in force at relevant invoice date.
C2.05	Targeted and time-bound exemption notifications — event-specific, time-limited, or sector-specific exemptions (e.g., COVID vaccine supply exemption, disaster relief notifications)	INAFIN Corpus	Conditional	A3,A10	Both	CRITICAL: These are distinct from standing exemptions in Notification 12/2017. Must be maintained separately with precise effective periods and HSN scope. Entity must also hold a specific entitlement instrument (Group D5) establishing their coverage under the targeted notification.
C2.06	Notification 48/2017 — Deemed exports (EOU/EPCG/AA supply) with conditions and permitted categories	INAFIN Corpus	Conditional	A8	Both	All conditions must be met simultaneously. Conditions have been amended — bitemporal check essential.
C2.07	Notification 66/2017 — Deferral of GST on advances for goods	INAFIN Corpus	Conditional	A4	Both	Confirms goods advance GST is deferred to time of supply. Was this notification in force at the relevant date?
C2.08	Place of supply notifications and rules — Sections 10–13 IGST Act with specific service category overrides	INAFIN Corpus	Mandatory	A1,A7,A8	Both	Determines inter vs intra-state. IGST vs CGST+SGST. Section 13 service-specific overrides (immovable property, events, transport, telecom, banking).
C2.09	Time of supply provisions — Sections 12–13 CGST Act with all amendments	INAFIN Corpus	Mandatory	A1,A4,A5,B5	Both	When GST liability arises. Governs interest computation start date. 30-day services rule and 60-day RCM import rule.
C2.10	CBEC notified exchange rates — by date and currency pair for all relevant currencies	INAFIN Corpus / CBIC	Conditional	A1,A8	Both	Required for foreign currency invoice INR conversion. Date-specific CBEC rate — not bank rate, not RBI rate.
C2.11	Legal Metrology (Packaged Commodities) Rules 2011 and amendments — scheduled	INAFIN Corpus	Conditional	A1	Both	MRP applicability determination for FMCG and retail profile clients. Exclusion list determines which

	commodities and MRP declaration requirements					commodities are outside MRP scope.
C2. 12	Finance Act 2023 — ISD mandatory amendment provisions (effective 01 Oct 2023)	INAFIN Corpus	Condit ional	B6	Both	Mandatory ISD compliance check for periods post Oct 2023. Cross-charge is no longer a valid alternative for common input services.
C2. 13	E-invoicing threshold notifications — all six threshold events from October 2020 to current	INAFIN Corpus	Manda tory	A1	Both	Determines e-invoice mandatory status at any given date. Invoice without IRN is only a finding if taxpayer was above threshold at invoice date.
C3 — CBIC Circulars and Instructions						
C3. 01	CBIC Circular 88/07/2019 — Tax head correction (IGST vs CGST+SGST): process for correcting wrong tax head payment	INAFIN Corpus	Manda tory	A1	Both	Authoritative position on tax head error remediation. Contest item A1.9.
C3. 02	CBIC Circular 92/11/2019 — Trade discounts: conditions for deductibility from taxable value	INAFIN Corpus	Manda tory	A1	Both	Standing and post-sale discount conditions. Contest item A1.2.
C3. 03	CBIC Circular 140/10/2020 — Director remuneration: executive vs non-executive RCM classification	INAFIN Corpus	Manda tory	A6,B5	Both	Operative position on director RCM. Whole-time directors are employees; non-executive directors attract RCM.
C3. 04	CBIC Circular 159/15/2021 — Cost-sharing between related entities: taxability framework	INAFIN Corpus	Manda tory	A6,A7,B5	Both	Establishes basis for cost-sharing arrangement taxability determination. Requires documented cost-sharing agreement.
C3. 05	CBIC Circular 167/2021 — Food delivery platform operators: GST liability shift to operator from restaurant (effective 01 Jan 2022)	INAFIN Corpus	Condit ional	A9	Both	Restaurant app sales nil-rated post 01 Jan 2022. Operator pays GST. Contest item A9 food delivery.
C3. 06	CBIC Circular 170/02/2022 — E-invoice: validity of invoice without IRN where threshold applicability is contested	INAFIN Corpus	Condit ional	A1	Both	Clarifies IRN mandate applicability by period and threshold. Contest item A1.7.
C3. 07	CBIC Circular 172/04/2022 — Canteen and transport: ITC availability and employee recovery taxability under statutory obligation	INAFIN Corpus	Manda tory	A3,A6,B3	Both	Factories Act canteen obligation — ITC available, recovery not taxable. Contest items A3.4, B3.3.
C3. 08	CBIC Circular 178/10/2022 — Liquidated damages: not taxable as tolerating an act for agreed deductions	INAFIN Corpus	Manda tory	A2,A3	Both	Operative post-circular position on LD. Pre-circular periods are contested. Contest item A2.2.
C3. 09	CBIC Circular 183/15/2022 — ITC time limit: claimable in any return before September of following year, not restricted to period of first GSTR-2B appearance	INAFIN Corpus	Manda tory	B1	Both	Critical for ITC recovery opportunity identification. Contest item B1.2.
C3. 10	CBIC Circular 187/19/2023 — Corporate guarantee: taxability of guarantee issued by holding company for subsidiary	INAFIN Corpus	Condit ional	A7	Both	Expanded scope of taxable inter-company supplies. Contest item A7.1.
C3. 11	All other CBIC Circulars — 2017 to current, full series	INAFIN Corpus	Manda tory	All sections	Both	Complete circular series required. Clarificatory positions change the operative tax treatment on specific

						issues. Bitemporal indexing mandatory.
C4 — Advance Rulings and Case Law						
C4.01	AAR / AAAR rulings — all states, all years: with fact pattern, provisions invoked, HSN codes, outcome	INAFIN Corpus (InstaVAT / Indian Kanoon)	Conditional	All sections	Both	Jurisdiction-specific positions on contested supply types. Binding on applicant, persuasive for others. Required for contest item citation.
C4.02	HC / SC / CESTAT judgments — GST-relevant: with provisions, HSN, outcome, appeal status	INAFIN Corpus (Indian Kanoon)	Conditional	All sections	Both	Judicial precedents for CA defence narrative. Appeal status determines whether the position is settled or still contested.
C4.03	Advance Ruling obtained by the specific taxpayer (AAR/AAAR) — entity-specific ruling on their specific supply	Client / AAR Authority	Conditional	All sections	Both	CRITICAL DISTINCTION: An AAR obtained by the taxpayer is binding on them and on the jurisdictional officer. The platform's corpus position must be overridden by the taxpayer's own AAR where it exists. Stored in Group D5.
C5 — Audit Manuals and Reference Data						
C5.01	CBIC GST Audit Manual 2019 — full text with chapter-level audit checklists	INAFIN Corpus	Mandatory	All sections	Both	Functional specification for audit checks. The department auditor's playbook. INAFIN platform audit checks are benchmarked against this manual.
C5.02	Model All India GST Audit Manual 2023 — full text	INAFIN Corpus	Mandatory	All sections	Both	Updated audit framework. Supersedes 2019 on overlapping provisions. Both manuals maintained — 2023 does not entirely replace 2019.
C5.03	HSN / SAC master with full rate history — July 2017 to current, per notification, per effective date	INAFIN Corpus / CBIC	Mandatory	A1,A3,A10,B3	Both	Most query-intensive corpus dataset. Every rate change creates a bifurcation. Approximately 180,000 rows in rate history. Source: InstaVAT export preferred.
C5.04	RCM liability table — notified categories with effective dates and supplier/recipient classification	INAFIN Corpus / CBIC	Mandatory	B5	Both	Structured reference data for RCM engine. Queryable by supply category and effective date.
C5.05	GSTN return form schema versions — JSON schema per form type per version: GSTR-1, GSTR-2B, GSTR-3B, GSTR-9, GSTR-9C	INAFIN Corpus / GSTN	Mandatory	All sections	Both	Required to parse historical filings correctly. Form schema has changed over time — historical returns must be parsed against the schema version in force when they were filed.
CATEGORY D — EXTERNAL THIRD PARTY DATA						
D1 — Marketplace and E-Commerce Operator Data						
D1.01	Amazon MTR (Monthly Tax Report) — order-level: order date, invoice date, GSTIN, state, taxable value, tax rate, IGST/CGST/SGST, invoice type	Amazon Seller Central	Conditional	A9	Both	Primary source for Amazon seller GSTR-1 preparation. Must be obtained for all months in scope.
D1.02	Flipkart GTR (GST Tax Report) — transaction-level GST data: seller invoice number, buyer state, tax amounts	Flipkart Seller Hub	Conditional	A9	Both	Flipkart equivalent of Amazon MTR. Field mapping differs — platform maintains operator-specific field maps as configuration.
D1.03	SSR (Seller Settlement Report) — financial settlement: TCS deducted, marketplace fee,	Amazon / Flipkart	Conditional	A9	Both	TCS reconciliation and net revenue verification. Settlement cycle does not align with GST monthly period.

	shipping charges, net payout per settlement cycle					
D1.04	DRR (Disbursement / Remittance Report) — bank transfer confirmation: net amount paid to seller bank account	Amazon / Flipkart	Conditional	A9	Both	Final link in settlement chain. Bank receipts + TCS + fees must equal gross platform sales.
D1.05	VRET / CCOGS (Return Report) — customer returns: order-level returns with return reason, date, refund amount, tax impact	Amazon / Flipkart	Conditional	A9	Both	Drives credit note issuance and GSTR-1 CDNR entries. Every return must have a corresponding credit note.
D1.06	Swiggy / Zomato restaurant partner order report — order-level sales data with GST classification post 01 Jan 2022	Swiggy / Zomato	Conditional	A9	Both	Post 01 Jan 2022: restaurant app sales are nil-rated (operator pays GST). Circular 167/2021 governs.
D1.07	Other marketplace settlement reports — Meesho, Myntra, Nykaa, Snapdeal and others as applicable	Respective platforms	Conditional	A9	Both	Format varies by platform. All ingested via ADR-056 accepted formats. Field mapping maintained as platform configuration.
D2 — Banking and Foreign Exchange Documents						
D2.01	FIRC (Foreign Inward Remittance Certificate) — per export invoice: date, amount, currency, remitter, AD bank reference	AD Bank	Conditional	A8	Both	Bank-issued confirmation of foreign exchange receipt. Required for LUT export zero-rating. Distinct from DGFT eBRC (B6.01).
D2.02	BRC (Bank Realisation Certificate) — older format pre-eBRC for export realisation confirmation	AD Bank	Conditional	A8	Forensic	Required for Forensic engagements covering periods before eBRC system was implemented.
D3 — SEZ and EOU Authority Documents						
D3.01	SEZ Bill of Entry — goods receipt confirmation at SEZ gate: invoice reference, goods description, value, date of entry	SEZ Unit (Buyer)	Conditional	A8	Both	Required for zero-rating of goods supply to SEZ units. Absence means goods did not enter the SEZ — zero-rating is disqualified.
D3.02	SEZ inter-unit supply permissions — Development Commissioner approval for supplies between units within the same SEZ	Development Commissioner	Conditional	A8,A7	Both	Specific permissions required for inter-unit supplies within SEZ. Without permission, the supply may not qualify for zero-rated treatment.
D4 — MCA and Statutory Registry Data						
D4.01	MCA21 registry data — annual filings, Form DIR-12 (director changes), Form MGT-7 (annual return) with shareholding pattern	MCA Portal	Conditional	A6,A3	Both	Verifiable source for director history, shareholding pattern, and corporate structure. Cross-reference for related party identification.
D4.02	NCLT admission order — for suppliers under IBC proceedings: moratorium date under Section 14 IBC	NCLT / Client	Conditional	B2	Both	Establishes moratorium date. Required for 180-day payment rule exception where supplier is in insolvency. Contest item B2.1.
D4.03	IBC resolution plan (if approved) — payment terms agreed under insolvency resolution process	NCLT / Client	Conditional	B2	Forensic	Establishes payment terms for IBC supplier. Determines ITC recovery position post-resolution.
D5 — Targeted and Event-Driven Entitlement Instruments						
D5.01	Advance Ruling obtained by the specific taxpayer (AAR/AAAR) — on their specific supply type, HSN, or tax position	AAR Authority / Client	Conditional	All sections	Both	Binding on applicant and jurisdictional officer. OVERRIDES general corpus position for that specific taxpayer on that specific issue. Must be stored and queried

						before anomaly is raised on the covered issue.
D5.02	Entity-specific targeted exemption instrument — government order, scheme notification, or procurement entitlement establishing the entity's coverage under a time-bound or targeted exemption	Relevant Government Authority / Client	Conditional	A3,A10	Both	For exemptions that are not blanket (e.g., COVID vaccine supply exemption — specific to empanelled manufacturers). Two-part check: (1) targeted notification in corpus (C2.05); (2) entity's entitlement instrument establishing their coverage under that notification. BOTH required.
D5.03	Entity-specific CBIC / jurisdictional officer clarification — written position issued to the specific taxpayer on a specific issue	CBIC / Jurisdictional GST Commissioner / Client	Conditional	All sections	Both	Not published — entity-specific. If taxpayer acted in good faith on a specific written clarification, it is a defence instrument even if the general law position has subsequently changed.
D5.04	Investment incentive scheme approval — state government order granting GST-linked benefit (SGST refund, exemption on specific supplies, deferral)	State Government / Client	Conditional	A3,A10	Both	State-specific. Scheme notification + entity's individual approval letter + compliance conditions are all required. Very relevant for large manufacturing clients in incentive-granting states.
D5.05	GST Practitioner authorisation (GST PCT-05) — scope of practitioner authority per GSTIN	GSTN Portal / Client	Conditional	All sections	Both	Required where a GST Practitioner is accessing the GSTN portal on behalf of the taxpayer. Establishes scope of authorised access. Relevant for CA firm engagement model.
D5.06	Court / stay order specific to the taxpayer — HC, SC, or CESTAT order staying a specific GST demand or deciding a specific issue in the taxpayer's favour	Court Registry / Client	Conditional	All sections	Both	A demand subject to a court stay is a managed position, not an open anomaly. Platform must record and exclude stayed demands from open anomaly count.
D5.07	GST amnesty / settlement scheme participation certificate — Vivad Se Vishwas or similar: settled period, settled issue, settlement amount	GSTN / Client	Conditional	All sections	Forensic	Settlement order closes the liability for that period and issue. Platform must not re-raise issues settled under amnesty schemes.

2.1 Source Document Count by Category and Group

Ref	Group	Total	Mandatory	Conditional
A1	Transaction Data (ERP and Books)	24	10	14
A2	Corporate Identity and Structure	7	4	3
A3	Director and Officer Documents	6	0	6
A4	Contracts and Agreements	9	0	9
A5	Export and Zero-Rated Entitlement Instruments	17	0	17
A6	Allied Law Instruments — Customs	6	0	6
A7	Allied Law Instruments — FEMA / RBI	5	0	5
B1	GSTN Filed Returns and Statements	11	7	4
B2	GST Registration and Status Documents	7	4	3
B3	Notices, Proceedings, and Settlement Instruments	7	1	6
B4	E-Invoice and E-Way Bill Portal Data	4	3	1

B5	ICEGATE and Customs Portal Data	3	0	3
B6	DGFT Portal Data	3	0	3
C1	Primary Legislation (Acts)	5	3	2
C2	Subordinate Legislation (Rules and Notifications)	13	8	5
C3	CBIC Circulars and Instructions	11	8	3
C4	Advance Rulings and Case Law	3	0	3
C5	Audit Manuals and Reference Data	5	5	0
D1	Marketplace and E-Commerce Operator Data	7	0	7
D2	Banking and Foreign Exchange Documents	2	0	2
D3	SEZ and EOU Authority Documents	2	0	2
D4	MCA and Statutory Registry Data	3	0	3
D5	Targeted and Event-Driven Entitlement Instruments	7	0	7
TOTAL	All Groups	166	53	113

53 Mandatory documents must be present before reconciliation output is produced. 113 Conditional documents are required for specific supply types, client profiles, engagement scope, or sub-sections. The total of 166 represents the complete source document universe for the INAFIN GST Audit Reconciliation Framework covering sections A1 through A10 and B1 through B8 including all output tax, input tax credit, entity entitlement, and allied law dimensions.

2.2 Minimum Onboarding Data Request — All Client Profiles

The following documents must be received at the start of every engagement before the completeness gate clears and reconciliation output is released. Conditional documents are requested based on client profile established at onboarding screening.

#	Document	Ref	Profile Scope
1	Sales register — full period in scope, line-item level	A1.01	All profiles
2	Purchase register — full period, line-item level with GL code	A1.03	All profiles
3	Credit note and debit note register with original invoice reference	A1.02	All profiles
4	Audited P&L and Trial Balance — full year	A1.08/09	All profiles
5	Balance sheet — full year	A1.10	All profiles
6	Fixed asset register — asset-level with ITC details and disposal records	A1.11	All profiles
7	Creditor ageing report and payment register with bank-verified payment dates	A1.12/13	All profiles
8	Bank statements — outward payments to suppliers and inward foreign receipts	A1.14/15	All profiles
9	Related party register with GSTIN/PAN and nature of relationship (client declaration)	A2.04	All profiles
10	Ind AS 24 / AS-18 related party disclosures from audited accounts	A2.05	All profiles
11	Shareholding pattern — per year in audit scope	A2.03	All profiles
12	GSTIN register — all GSTINs under the same PAN with state and registration type	A2.07	All profiles
13	GST Registration Certificates (REG-06) for all GSTINs of the taxpayer	B2.01	All profiles

14	Open SCN register — all open show cause notices with period, issue, and current stage	B3.01	All profiles
15	DRC-03 voluntary payment records — all prior voluntary payments	B3.03	All profiles
16	List of directors with DIN and board resolutions on executive appointments	A3.01/03	All profiles
17	Any entity-specific AAR/AAAR rulings obtained by the taxpayer	C4.03/D5.01	All profiles
18	Any court stay orders or amnesty settlement orders relevant to periods in scope	D5.06/07	All profiles
19	LUT ARN and validity confirmation — for exporters	A5.01	Exporters
20	FIRC/BRC register — for exporters	A5.14	Exporters
21	SEZ LoA/LoP, EOU LoP, STPI registration — for zero-rated supply taxpayers	A5.03/08/09	SEZ/EOU/STPI suppliers
22	Platform settlement reports (MTR/GTR/SSR/DRR/VRET) — for marketplace sellers	A1.20/D1.01-07	eCommerce
23	Foreign currency payment register — for import of services RCM assessment	A1.23	Corporates with overseas vendors
24	Product / SKU master with MRP flag — for FMCG and retail profiles	A1.17	FMCG / Retail
25	Investment incentive scheme approvals — if applicable	D5.04	Incentive scheme beneficiaries

This checklist is the minimum data request. The CA engagement team issues this to the client at the start of every engagement. Conditional items (items 19–25) are requested based on the client profile screening at onboarding. Additional documents from the full register are requested as the reconciliation engine identifies specific supply types, entitlement claims, or proceeding stages that require them.
